Office Action Summary	Application No. 10/670,177	Applicant(s) TUMA ET AL.	
	Examiner Jeffrey G. Hoekstra	Art Unit 3736	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Notice of Amendment

1. In response to the amendment filed on 08/10/2006, amended claim(s) 13-15, canceled claim(s) 1-12, and new claim(s) 17-23 is/are acknowledged. The current rejections of the claim(s) 13-15 is/are *withdrawn*. The following new and reiterated grounds of rejection are set forth:

Claim Objections

2. Claim 16 is objected to because of the following informalities: the positive recitation of "automatically displays" appears to lack antecedent basis and/or appears to render the claim indefinite. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 13-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Delp et al (US 5,682,886). For claims 13-18, 20, and 23, Delp et al discloses a surgical assistance device as broadly as structurally claimed, comprising:

- a robot (750) comprising a force applying device (column 15 lines 15-22);

- a force measuring device (670);
- a detection device (240) for detecting the positions of joint components and positions of structures connected to or to be connected to joints, wherein said detection device is capable of detecting said joint positions when a force is being applied;
- a storage unit (780);
- a data output device (850);
- a display (790) automatically providing a visual representation of the ascertained aperture angle (column 15 lines 9-15); and
- a computational unit (770) ascertaining the configuration of joint angles based on detected positions, as best seen in Figures 4, 5, 8, 10, 16, 17, 19 and 21.

5. For claim 19, Delp et al discloses a manually operable force-applying device via femoral jigs (1000 and 1010) for example.

6. For claims 21 and 22, Delp et al discloses reference markers (870) attached to joint components, wherein said detection device determines the reference markers positions and wherein said computational unit registers the joint positions based on the detected positions of the reference markers as best seen in Figure 21 (column 16 line 17 – column 18 line 51).

Response to Arguments

7. Applicant's arguments with respect to claims 13-23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
